

HMC Projects Online Test/Interview 2022

The candidates should take an online English test. Also, the scholarship interviews will be conducted remotely by our experienced native English-speaking interviewers using Zoom. If at all possible these will be carried out at the centre in your country organised by our host coordinator. However, if travel restrictions make this impossible then it may be necessary to test/interview your son/daughter at home or in school. In this case, it is important that the conditions are optimal for your son/daughter to perform at their best, free of any disturbance, distraction or influence from any other person.

We therefore ask that your son/daughter is alone in the room at home during the test/interview and that the conditions are quiet. The appliance should be fitted with a webcam and it may be helpful for headphones to be used.

Permission Form for Online Test/Interview

As parents/guardians, we give permission for:

..... (name of scholarship candidate)

to take an online test and to be interviewed online. We understand that the interview may be recorded. We agree to abide by the following arrangements:

- We will arrange for the Zoom application to be downloaded to the appliance used for the test/interview.
- We will ensure that the candidate wears clothes appropriate for a test/interview.
- We will ensure that the camera used is not placed in a bedroom or bathroom.
- We will endeavour to ensure that a quiet environment is provided for the test/interview.
- We understand that we should not be in the room ourselves while the test/interview is taking place.

It is intended that two interviewers will together interview the candidate and that the host coordinator will also be in attendance remotely.

.....(name of parent/guardian)

.....(signature of parent or guardian)

We are grateful for your assistance to enable your son/daughter to perform at their best. Thank you for your interest in the HMC Projects scholarship programme.
